

Situation

Reference Doc: [Customize Flow Maps](#).

For screenshots of a GUI that is not an AppDynamics product, such as the AWS Management Console, add the context to the alt text entry in parentheses. For example, "Create Policy (AWS Management Console)."

Alt Text: Create Policy (AWS Management Console)

Alt Text: Connect a Cloud Platform

Conclusions

- Do not include title text.
- Be consistent in documenting the screen/action.
- Write alt text in title case.
- When writing about another company's product (such as AWS), call out their UI in the alt text. For example, Header Mappings (AWS API Gateway).
